Part no. 12.42311; **Dummy set complete** as shown, with face plate, lever 12.045 and special roses.

Through bolted mounting  
with  $\frac{3}{4}$ "  $\varnothing$  borehole.

Set includes one mount bar, one straight  
spindle, one pair of  $2\frac{3}{16}$ " (55 mm) flush  
roses and two levers. Supplied with blank  
faceplate to cover edge borehole.

In the early 1990s we gave the plain round rod of the stable-door handle a going over. The shank was conically widened and a hemispherical tip was added to the bent end. Two small but important special features that have given the 1146 model a character all of its own.

**[WWW.IZERWAREN.COM](http://WWW.IZERWAREN.COM) [SALES@IZERWAREN.COM](mailto:SALES@IZERWAREN.COM)**

In the autumn of 1996, Düsseldorf-based interior designer Heike Falkenberg asked to recreate an old handle design for a renovation job. Using the sketch she submitted, developers milled a prototype from an 1076 handle. This looked so good that we decided to market our gripping idea.
